## Galleria Professional Engineered Rustic Oak Flooring Natural Unfinished

If you're a traditionalist on the lookout for a delightful and warming wood floor, then Galleria Professional Engineered Rustic Oak Natural Unfinished might just be what you have been after. The allure of the lively grain and swirling patterns, coupled with the wide variety of knots and colour range that are characteristic as an authentic rustic-grade oak, are on full display in its natural and unfinished state, ready to be enhanced by a finish of your choosing to compliment the interior style of your home. Simply vacuuming and an occasional damp-mop are all that is needed to maintain this floor.

The 190mm wide and long length planks are excellent fits for spacious medium and large sized rooms, especially in traditional family homes where the proportions help to create an all-round well-fitted look.

The high-quality multi-layer construction of this floor offers exceptional stability, with the 6mm hardwood wear layer complimenting the thick boards for a dense underfoot feel. The traditional tongue-and-groove fixing of this load-bearing floor is best fitted by a professional installer.

### Product Details
