## Spectra Coal Black Stone Tile Luxury Rigid Core Click Vinyl Flooring

With a misty toned splash pattern playing subtly in the background of a luxurious black flooring, Spectra Coal Black Stone Tile takes the floor of your dreams and gifts it to you in a rigid core vinyl flooring package that promises to exceed your expectations. The textured surface brings the feel of stone underfoot in your home with jaw-dropping authenticity, a look heightened by accurately proportioned 610mm x 303mm tiles each with four bevelled edges to complete the stone effect.

Worthy of the durability associated with its stony heritage, this AC3 rated waterproof floor not only has 12 years of residential warranty, but a unique polyurethane top layer that offers protection against spills and scratches that would otherwise chip away at its glory. With all that and click system technology that makes for a smooth DIY-friendly installation, there is nothing holding you back from adding this treat of a floor to your home.
