Vitality Orion Gamma Plank Effect Sheet Vinyl

The perfect way to bring the feeling of a wood plank, stone tile or herringbone design into your home, our Vitality Orion Sheet Vinyl series of flooring is a great budget alternative while providing a striking style and comfort in a playroom or utility room. Our Vitality Orion series comes equipped with a felt backing, which helps reduce the effects of subfloor imperfections, removing the need for underlay. It can also be loose laid up to 12m² in a low traffic area, making it perfect for smaller DIY projects. This water-resistant flooring is compatible with underfloor heating systems up to 27°C, allowing you to keep your toes toasty in those winter months.

Bring the peaceful calm of nature into your home with our Vitality Orion Gamma plank effect sheet vinyl flooring. This beautiful wide wooden plank effect adds the rustic feeling of a country house with the benefits of water resistance and ease of clean. Available in both 4m and 3m widths, these ashy tones will help any room feel both cosy and welcoming, while the textured finish and inclusion of realistic knots and lines help provide your new floor with added character.
